

# Northern Light® Rebel Cap Lamp

The industrial workhorse cap lamp.

## Northern Light® Rebel:

The Northern Light® Rebel is NLT's rugged, cordless cap lamp designed for outdoor and industrial applications.

The tough, high powered and hands-free Northern Light® Rebel is compact in design and provides five hours of constant high beam light, or up to 20 hours at medium output. With a bulb that lasts for at least 20,000 hours. The Rebel is a portable, all-in-one LED cap lamp with three light settings, including a super-high 17,000 Lux beam.

Color filters allow for maximum light and visibility while the light source includes a patented lens for the ultimate light output and a perfectly focused spot. The high-powered lithium ion battery can be recharged over 500 times, reducing unnecessary waste and saving you money. The Northern Light® Rebel is mountable to a wide variety of gear, including hats, helmets, belts, clothing, machinery, and vehicles.

The Northern Light® Rebel battery is now field replaceable by your authorized NLT distributor.

## Features of the NLT Rebel:

- Cordless light weight cap lamp in an IP 67 enclosure
- Main LED has two light settings that allow for a high light output 17000 lux and a medium light output 5000 lux
- Secondary LED for auxillary or emergency use.
- 5 hour battery life with high light beam setting and 20 hour battery life with medium light beam setting
- Field servicable by NLT distributor
- Any NLT charging infrastructure can be retrofitted for the NLT Polaris
