- IP68

#### Compact and Powerful Work Truck Perimeter Lights

The Federal Signal 4200S perimeter light provides powerful illumination in a small package. At only 1.28 inches tall, these Amber truck lights are extremely discrete-until you turn them on. The 4200S houses (4) LEDs and the Amber truck lights meet SAE J595 Class 1 standards for directional lighting, making them an ideal choice for regulatory compliance on tow trucks, utility trucks, and truck cranes, as well as in numerous other applications.

The 4200S LED truck light is capable of (12) different flash patterns, ensuring that each operator will find the ideal pattern available for the setting and industry in which they work, whether that is towing, utility work, road maintenance, or construction. Black bezels are included with the 4200S. The wide variety of features noted above make the 4200S one of the best LED truck lights available and can be purchased at an extremely competitive price.
